SUTTONS ANAGALLIS
Blue Pimpernel

- Hardy annual – sow direct outside
- Easy to grow
- Ideal for a sunny border

Sow Plant out Flowers

Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec

SOWING AND GROWING
Sow the seed thinly direct into finely raked, moist, warm, weed free soil where the plants are to flower, 6.5mm (¼") deep. Germination normally takes 10-20 days. As the seedlings develop thin by degrees to achieve a final spacing of 20cm (8"), using the spare plants to fill any spaces.
Alternatively sow under cover and plant out in pots and tubs.

HELPFUL HINT
Sow under cover for planting in containers.

Quality Control: This seed has been carefully tested to ensure high germination. Prior to use, store in a dry cool place.
