## SUNFLOWERS

- Easy to grow, annual sunflowers
- Tall and dwarf varieties
- For borders or containers

■ Sow   
 ■ Plant out   
 ■ Harvest

Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec

**Tall Single** - a very tall sunflower with enormous golden-yellow flowers. Height 210-240cm (7-8').

**Irish Eyes** - a dwarf sunflower with attractive yellow-green flowers. Height 45cm (18").

**Autumn Beauty** - an interesting mixture of colours, ranging from pale to bright yellows and red bi-coloured blooms. Height 1.8-3m (6-10').

**Paquito Mix** - a unique mixture of dwarf, bushy sunflowers in a range of colours from pale yellow to deep bronze. Height 45-50cm (18-20").

**Teddy Bear** - a dwarf sunflower with yellow, double flowers that have a fluffy, rounded appearance. Height 40-60cm (16-24").

Should any of the varieties stated be unavailable, we will substitute with another first class item.

### HOW TO GROW

For early blooms sow indoors in March, one seed per 10cm (4") pot, 13mm (½") deep. Acclimatise plants to outside conditions, planting out, spacing as below. Alternatively sow outside April/May, 13mm (½") deep, into finely raked, moist, warm, weed-free soil where the plants are to flower. Thin seedlings to spacings given below. Space Tall Single and Autumn Beauty plants 30-45cm (12-18") apart against a sunny wall or at the back of a border. Space Irish Eyes, Paquito Mix and Teddy Bear plants 25-30cm (9-12") apart in borders or large containers. Grow in a well manured soil in a sunny position. If growing the dwarf varieties in containers, the final height will be influenced by the size of container used.

### AFTERCARE

Water taller varieties well in summer for the tallest plants, water dwarf varieties well to extend the flowering period.

### HELPFUL HINT Sunflowers make excellent cut flowers. Try petals and seeds in salads and cakes.

**Quality Control:** This seed has been carefully tested to ensure high germination. Prior to use, store in a dry cool place.
