- Robust and tolerant to drought and most soils
- Superb for containers and sunny borders

Sow    Plant out    Flowers

Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	

**SOWING AND GROWING**  
Sow thinly direct into finely raked, moist, warm soil where the plants are to flower at a depth of 6mm (1/4") covering the seed lightly with soil. Germination normally takes 14-21 days. Thin seedlings in stages to 15-23cm (6-9") apart removing any competing weeds. Must be grown in full sun for best results.

**FASTFLOWERS** flowers in just **9-10** weeks

**Quality Control:** This seed has been carefully tested to ensure high germination. Prior to use, store in a dry cool place.
