**SOWING AND GROWING**

Sow in a propagator on a windowsill or in a greenhouse at approx. 15-20°C (60-68°F) using a good quality, finely sieved, moist compost. Cover the seeds with 6mm (¼") sieved compost (Germination 14-21 days). Transplant seedlings when large enough to handle singly into 75mm (3") pots. Finally transplant into large pots, grow bags or the greenhouse border allowing 45-60cm (1½-2') between plants. Will fruit successfully in either a cold or slightly heated greenhouse. Sowing → Cropping – 20-24 weeks.

**HEALTHY EATING**  
Contains Vitamins E and K.

5 011567 150904 >

**Quality Control:** This seed has been carefully tested to ensure high germination. Prior to use, store in a dry cool place.

**Important:** F1 Hybrid seed is expensive to produce and should be handled with care.
