# SUTTONS CABBAGE

Greyhound

- Well named – fast grower
- Full of flavour and Vitamin C
- Use cooked or raw in salads

■ Sow    ■ Plant out    ■ Harvest

### SOWING AND GROWING

Sow thinly Mar-Jun into a finely raked seedbed at a depth of 13mm (½") (Germination 7-12 days). Transplant with a trowel when large enough to handle, allowing 30cm (12") between plants each way. Alternatively sow Jan-Feb in a propagator on a windowsill or in a greenhouse at approx. 10-15°C (50-60°F) using good quality compost. Cover with 6mm (¼") sieved compost. Transplant seedlings into 75mm (3") pots, grow on and finally plant outside in well cultivated soil for early crops.

### HEALTHY EATING

Leaves around 'heart' contain most nutrients.

**Quality Control:** This seed has been carefully tested to ensure high germination. Prior to use, store in a dry cool place.

Standard Seed.
