SUTTONS **CARROT**
Autumn King 2

 • Large, popular, late maturing type
• Heavy cropper

Sow Plant out Harvest

Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec

SOWING AND GROWING
Sow thinly direct into finely raked, moist, warm, weed-free soil at a depth of 13mm (½") in rows about 30cm (12") apart. Carefully thin the seedlings by degrees to 50-75mm (2-3") between plants. Carrots grow best in a sunny position in well cultivated soil which has not recently been manured. Lift surplus roots September/October and store in a shed or garage, packed in sand.
Sowing → Cropping – 22-26 weeks.

HEALTHY EATING
Use same day for maximum Vitamin A and C content.
