SUTTONS CONVOLVULUS MAJOR
Trumpet Mix

- Hardy annual – sow direct outside
- Ideal for walls and fences
- Easy to grow – ‘Trumpet-like’ blooms

Sow Plant out Flowers

Year 1												
	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Year 2												

SOWING AND GROWING
Sow mid March-May in a sunny position direct into finely raked, moist, warm soil at a depth of 13mm (½") where the plants are to flower, covering the seeds lightly. Germination takes 5-14 days. Thin seedlings in stages to a final spacing of 30cm (12"). Provide supports for the young plants to climb. Alternatively sow in September and protect with cloches through winter for early summer flowering. Soaking seeds in water overnight prior to sowing may improve germination.

HELPFUL HINT
Ideal to hide unsightly corners, sheds etc.

Quality Control: This seed has been carefully tested to ensure high germination. Prior to use, store in a dry cool place.
