- Half Hardy Annual - sow under cover
- First Cosmos of this type
- Easy to grow

Sow Plant out Flowers

Year 1												
	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Year 2												

SOWING AND GROWING

Sow in a propagator on a windowsill or in a greenhouse at approx. 18-21°C (65-70°F) using a good quality moist compost. Cover the seeds with 6mm (¼") sieved compost. (Germination 5-10 days.) Transplant seedlings into trays and grow on. Acclimatise plants gradually before planting out 40cm (15") apart in an open sunny position. Alternatively sow direct into garden soil from March to May for late summer flowering.

HELPFUL HINT
Lovely tall plants for an informal border.

Quality Control: This seed has been carefully tested to ensure high germination. Prior to use, store in a dry cool place.
