F¹ Double Duo Mix

 • Half hardy annual – sow under cover
• For baskets, tubs & borders

 Sow  Plant out  Flowers

Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	

SOWING AND GROWING
Sow in a propagator on a windowsill or in pots or trays in a greenhouse at approx. 15-20°C (60-68°F) onto good quality, finely sieved, moist compost. Do not exclude light or allow to dry out (Germination 10-21 days). Transplant seedlings when large enough to handle, spacing them out in trays 5cm (2") apart and grow on without check. Acclimatise gradually before planting out 30cm (12") apart in a sunny position after the danger of frost has passed.

HELPFUL HINT Colourful companion - try growing with Lobelia and silver Cineraria.

Quality Control: This seed has been carefully tested to ensure high germination. Prior to use, store in a dry cool place.
Important: F1 Hybrid seed is expensive to produce and should be handled with care.
