- Half hardy annual – sow under cover
- Economy mix for large borders
- Flowers all summer

Sow    Plant out    Flowers

Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec

**SOWING AND GROWING**  
Sow in a propagator on a windowsill or in pots or trays in a greenhouse at approx. 15-20°C (60-68°F) lightly onto a good quality, finely sieved, moist compost. Do not exclude light or allow to dry out. (Germination 10-21 days.) Transplant seedlings when large enough to handle, spacing them out 5cm (2") apart in trays and grow on without check. Acclimatise gradually before planting out 30cm (12") apart in a sunny position after the danger of frost has passed.

**HELPFUL HINT** Pinch off faded or dead flower heads to encourage new flowers to develop.

**Quality Control:** This seed has been carefully tested to ensure high germination. Prior to use, store in a dry cool place.
