SUTTONS POPPY
Lilac Pompom

- Hardy annual - sow direct outside
- Attractive pods when dried
- Easy to grow - longer lasting

Sow Plant out Flowers

Year 1												
	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Year 2												

SOWING AND GROWING
Sow direct into finely raked, moist, warm soil where the plants are to flower at a depth of 6mm (¼") raking in lightly. (Germination normally takes 10-14 days.) Thin out seedlings if necessary to a final spacing of 23cm (9") apart, removing any competing weeds. Can also be sown in September for flowering the following year.

HELPFUL HINT Cut stems can be briefly placed in boiling water to prolong the flowering display.

Quality Control: This seed has been carefully tested to ensure high germination. Prior to use, store in a dry cool place.
