Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	

**SOWING AND GROWING**

Sow in pots or trays on a windowsill or in a greenhouse at approx. 15-20°C (60-68°F) using a good quality, finely sieved, firmed, moist compost at a depth of 6mm (¼") and cover to exclude light (Germination 7-30 days). Transplant seedlings spacing them out 5cm (2") apart in seed trays and grow on. Plant out 30cm (12") apart into flowering positions in May/June.

**HELPFUL HINT** For drying, cut when coloured but not fully open. Hang them upside down in a cool airy place.

**Quality Control:** This seed has been carefully tested to ensure high germination. Prior to use, store in a dry cool place.
