SUTTONS VIOLA
Fancy Shades Mix

- Grow as half hardy annual – sow under cover
- Pretty flower colours

■ Sow ■ Plant out ■ Flowers

Year 1												
	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Year 2												

SOWING AND GROWING

Sow thinly in pots or trays on a windowsill in a propagator or in a greenhouse at approx. 10-15°C (50-65°F), 3mm (1/8") deep, in a good quality, finely sieved, firmed, moist compost (Germination 14-21 days). Transplant seedlings, spacing them 5cm (2") apart in trays, and grow on. Plant out in May, after acclimatising the plants to outside conditions, 23cm (9") apart. Alternatively in June-July, sow the seed direct into finely raked, moist, warm, weed-free soil 6mm (1/4") deep. Thin out seedlings to achieve a final spacing of 15cm (6"). Plant in flowering positions in the autumn.

HELPFUL HINT
Removal of dead blooms will promote further flowering.

Quality Control: This seed has been carefully tested to ensure high germination. Prior to use, store in a dry cool place.
