SOWING AND GROWING

For container growing – sow thinly, direct into the compost. For raised beds try sowing in 30cm squares, spacing four seeds every 7.5cm (3") 15mm (½") deep. (Germination 10 – 28 days.) As the seedlings emerge, remove spare seedlings to leave one per station (then you will have 16 plants per square). Alternatively sow in rows 30cm (12") apart.

Sowing → cropping 12-14 weeks.

HEALTHY EATING High in Vitamin A & C – they really do help you see in the dark.

Quality Control: This seed has been carefully tested to ensure high germination. Prior to use, store in a dry cool place.

Standard Seed.
