**SUTTONS** CARROT  
St Valery

- Ideal variety for village show
- Long, pointed, tasty carrots
- Easy to grow

Sow    Plant out    Harvest

Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec

**SOWING AND GROWING**  
Sow thinly direct into finely raked, moist, warm soil at a depth of 13mm (½") in rows about 30cm (12") apart (Germination 15-20 days). For table use, carefully thin the seedlings to 50-75mm (2-3") between plants. If roots are required for exhibition, wider spacing is recommended. Carrots grow best in a sunny position in soil not recently manured. Sowing → Cropping – 20-22 weeks. Late crops may be stored in sand until required.

**HEALTHY EATING**  
Add colour to the plate – high in Vitamin A and C.

**Quality Control:** This seed has been carefully tested to ensure high germination. Prior to use, store in a dry cool place.
