SUTTONS CUCUMBER
F1 Burpless Tasty Green

- Delicious fruit 23cm (9") in length
- High yielding, mildew resistant
- Reliable cropper

■ Sow ■ Plant out ■ Harvest

Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec

SOWING AND GROWING
Sow in a propagator on a windowsill or in a greenhouse at approx. 15-20°C (60-68°F) using a good quality compost. Ideally sow one seed per 76mm (3") pot to save root disturbance when planting out after frost risk has passed. Cover seed with 13mm (½") compost. (Germination 6-9 days.) Can also be sown direct outside at a depth of 13mm (½"), thinning to 90cm (3') between plants each way. Water and feed regularly during periods of dry weather. Sowing → Cropping approx. 12-14 weeks.

HEALTHY EATING Train up a trellis to save space. Leave both male and female flowers which insects will pollinate.

5 011567 162457

Quality Control: This seed has been carefully tested to ensure high germination. Prior to use, store in a dry cool place.

Important: F1 Hybrid seed is expensive to produce and should be handled with care.

Standard Seed.
EC rules and standards.
